

Mahatma Gandhi

- our inspiration for living in harmony with nature

Yet let us take a closer look...

Katie Paterson 2007

“The earth provides enough for every man’s need but not for every man’s greed.”

Mahatma Gandhi

“The greatness of a nation and its moral progress can be judged by the way its animals are treated”.

Mahatma Gandhi

“It is an arrogant assumption to say that human beings are lords and masters of the lower creatures. On the contrary, being endowed with greater things in life, they are the trustees of the lower animal kingdom.”

Mahatma Gandhi

“Gandhi’s utopia is one of the few that shows ecological balance”

Arne Næss, quoted in Weber 1999

“The difference between what we do and what we are capable of doing would suffice to solve most of the world’s problems.”

Mahatma Gandhi

“Looking outward to the blackness of space, sprinkled with the glory of a universe of lights, I saw majesty - but no welcome. Below was a welcoming planet. There, contained in the thin, moving, incredibly fragile shell of the biosphere is everything that is dear to you... That's where life is.”
